the **rphylopic** package : : cheat sheet

Add silhouettes of organisms (originally found on the PhyloPic website)
to plots generated in R & ggplot2.

Getting silhouettes

get_uuid(...)

get a PhyloPic uuid

pick_phylopic(...)

pick a PhyloPic image from available options

get_phylopic(...)

retrieve an image for a given PhyloPic uuid

get_attribution(...)

get PhyloPic attribution data

**save_phylopic(...)**

save a PhyloPic image

Adding silhouettes to plots

add_phylopic(...)

add a PhyloPic to a ggplot plot

add_phylopic_base(...)

add a PhyloPic to a base R plot

The rphylopic package was
originally developed and maintained
by Scott Chamberlain.

From ver. 1.0.0, the package is now
developed and maintained
by William Gearty and Lewis A. Jones
from the Palaeoverse team.
